

Check it: three digits

Name: _____

Date: _____

Divide first, then prove it: quotient times divisor, plus the remainder, back to the start.

1. **846 ÷ 4 =**

Check: × + =

2. **131 ÷ 8 =**

Check: × + =

3. **424 ÷ 9 =**

Check: × + =

4. **347 ÷ 2 =**

Check: × + =

5. **809 ÷ 9 =**

Check: × + =

6. **724 ÷ 7 =**

Check: × + =

7. **350 ÷ 9 =**

Check: × + =

Answer key: Check it: three digits

Divide first, then prove it: quotient times divisor, plus the remainder, back to the start.

1. $846 \div 4 = 211 \text{ R } 2$

Check: $211 \times 4 + 2 = 846$

2. $131 \div 8 = 16 \text{ R } 3$

Check: $16 \times 8 + 3 = 131$

3. $424 \div 9 = 47 \text{ R } 1$

Check: $47 \times 9 + 1 = 424$

4. $347 \div 2 = 173 \text{ R } 1$

Check: $173 \times 2 + 1 = 347$

5. $809 \div 9 = 89 \text{ R } 8$

Check: $89 \times 9 + 8 = 809$

6. $724 \div 7 = 103 \text{ R } 3$

Check: $103 \times 7 + 3 = 724$

7. $350 \div 9 = 38 \text{ R } 8$

Check: $38 \times 9 + 8 = 350$
