

# Count up to subtract, within 100

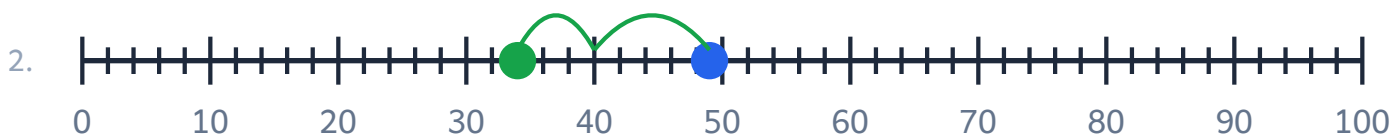

Name: \_\_\_\_\_

Date: \_\_\_\_\_

Subtract by counting up: from the small number to the ten, then on to the big one. The difference is the two hops added.

$$46 - 38 = \boxed{\phantom{00}} + \boxed{\phantom{00}} = \boxed{\phantom{00}}$$

$$49 - 34 = \boxed{\phantom{00}} + \boxed{\phantom{00}} = \boxed{\phantom{00}}$$

$$72 - 67 = \boxed{\phantom{00}} + \boxed{\phantom{00}} = \boxed{\phantom{00}}$$

$$76 - 64 = \boxed{\phantom{00}} + \boxed{\phantom{00}} = \boxed{\phantom{00}}$$
